BASEPLATES

Universal Baseplate

SKU: Z-UB3

- First universal baseplate adjustable for all cameras including the Panasonic HPX170, HVX200, Sony PMW-EX1, EX3, RED ONE, SI-2K, DSLR's and any other flat bottom camera
- Uses rods behind the camera to mount accessories such as hard-drives, monitors, and wireless transmitters using a quick release system
- Mounts to the camera with a 1/4 20" screw and a locking pin and it attaches to the tripod plate with both 3/8 16" and 1/4 20" screws
- Adjustable- has up and down as well as side to side adjustments, allowing it to align all cameras with various matte boxes and follow focus units

List: \$560

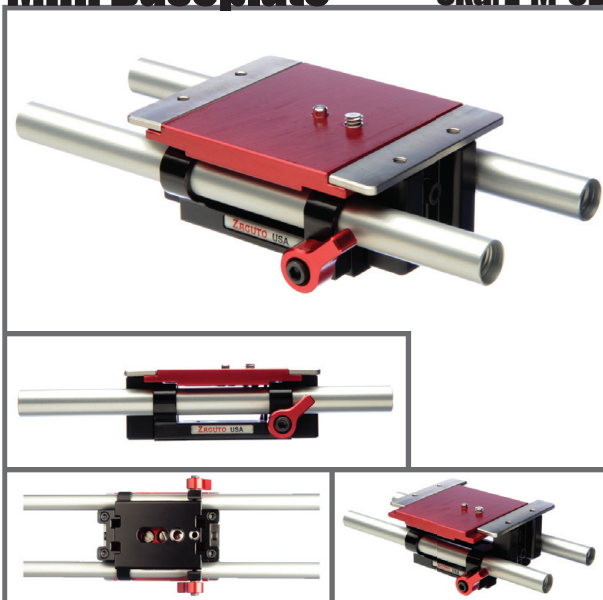

Mini Baseplate

SKU: Z-M-UB

Many of the same features as the Universal Baseplate, but designed for use with smaller DSLR cameras such as the Nikon D90, Canon 5d Mark II but can still be used with midsized flat bottom cameras such as the Panasonic HPX170, HVX200, Sony EX1, and other cameras of this size as well as Small HD cameras like the Canon HV20, HV30, and so forth

Mounts to the camera with a 1/4 20" screw and a locking pin and it attaches to the tripod plate with both 3/8 16" and 1/4 20" screws

Adjustable- has up and down as well as side to side adjustments, allowing it to align all cameras with various matte boxes and follow focus units

List: \$430
